BEST QUESTIONS

What are the full expectations of the role, ie. hours, output, KPIs?

Where is the previous person now?

What are some examples of employees who have progressed from this position?

YOU

All of these questions will provide you with an understanding of **who the managers are**, what they're about and what potential opportunities there are in the business.

But most importantly, whether **you** think you will be successful in that environment, with those managers and their expectations of that role.
